

## THEODORE APRIL

I have a degree in Elementary Education, Masters degree in Education and Supervision and 30 credits beyond my Masters degree.

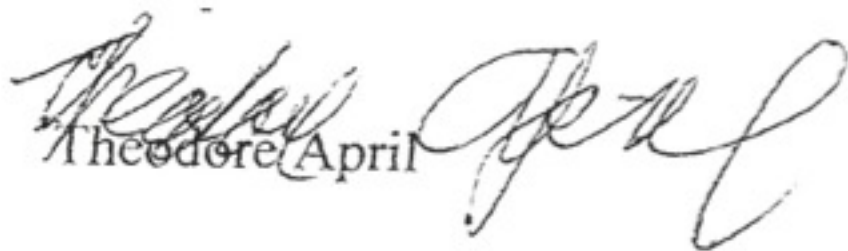

Taught elementary school; promoted to Vice-Principal. Supervising 40 teachers. Member of the PTA, receiving awards including tutoring Math and English to students free of charge.

President of Presidential for 8 years, including Hurricane Andrew. Under my leadership and help of owners, we accomplished new roof, water tower, air conditioners, etc. Formed committee to choose tile and design for hallways. Unit owners voted for color of doors, walls of hallways building. Legally changed election from August to February accommodate winter residents and changed alteration and improvements from 75% to 51%.

Because of my knowledge and experience I would be a great asset in managing the building.

I want to thank all the people who supported me in the past and who will support me in the future.

Respectfully,

  
Theodore April

PS. During me presidency there was never a scandal, liability court case and I collected all monies due to The Presidential.
